## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on July 29, 2003 has been entered.

### ***Claim Rejections - 35 USC § 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1 and 12-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 97/03169. Claims 1 and 12-39 are rejected for the reasons given by the Board of Patent Appeals and Interferences. *Applicant's failure to appeal further amounts to an acquiescence that these claims are unpatentable.* As applicant notes, the reference clearly discloses that water soluble magnesium and calcium salts may be added to contribute stability. Applicant's addition of the word "stable" does not overcome the reference. Regarding claim 40, the reference discloses an upper limit of "about 2%", as noted by applicant. This meets the lower limitation of 2.2% recited in this claim. Claim

Art Unit: 1751

41 is not patentable for the same reason that claims 18-21, 23 and 35 are not.

Regarding claim 42, the recited range falls within the most preferred range of solvent disclosed at the top of p. 4 of the reference.

4. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
